

Our planet-is one global village

Gymnasium № 5
Severobaikalsk, 2016

Made by Klyaus N.V., a teacher of English

Sometimes we meet foreign people at English lessons

A blue globe is centered in the image, surrounded by a circle of white office chairs. The globe shows the continents of North and South America. The chairs are arranged in a circle, suggesting a meeting or a classroom setting. The background is a light, neutral color.

We think, that speaking with foreigners is one of the most advantageous methods of improving our English.

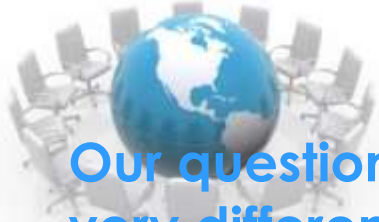

This time we have invited Antonio, a university teacher from Spain

**It was important for us to understand
that Antonio understands us**

Our questions were very different:

- Where are you from?
- Where do you work?
- Have you got a family?
- Where do you usually travel?
- What is your attitude to Russia?
- What do you think about Putin?
- Are you in Russia for the first time?
- Will you come here once more?
- Do you like our school?
- How can you manage to travel so much?
- What is your attitude to different people?

We liked that meeting

We asked a lot of questions

He had to answer all our questions

**We will remember that
person from Spain**

Thank you for the participation in our meeting.

We always will be glad to see any person with kind heart and real friend to Russia.
